

Speedwatch

Initial take up on Speedwatch was good with several volunteers. Some of the members are working full time so not always easy to help. 3 people are needed to conduct an actual event.

We had been focussing on school runs to be visible, not always catching anyone speeding but there as a visible deterrent to slow down traffic during this busy period.

Recently due to my other commitments I have struggled to organise shifts and looking for possible candidates to take over the running of scheme.

We have recently renewed existing members with annual verifications. Suffolk Police suggest combining with a neighbouring village to make best use of volunteers.

Perhaps we could contact Buxhall to combine resources and see if they can champion if no one is able to take on in the village.
