

# Great Finborough and Buxhall Under 5's Annual Report

## Introduction

We are pleased to present this report outlining the activities, achievements, and ongoing developments at our preschool over the past year. Through the combined efforts of staff, parents, committee members, and local supporters, we have made significant progress in enhancing our preschool environment and enriching the experiences of our children.

## Fundraising Achievements

Thanks to the enthusiasm and generosity of our community, we have raised over £2,000 through a series of successful events, including last year's Sports Day, the Christmas Fair, the Easter Hunt, and the Bogman race. These initiatives have not only brought our community closer together but have also provided essential funding for much-needed improvements at our preschool.

## Preschool Improvements

The funds raised over the last two years, combined with a generous contribution from the Garden Club and a remarkable donation from a parent who completed last year's London Marathon, have enabled us to carry out vital upgrades. Notably, we have installed a new kitchen to replace our ageing cupboards, ensuring a safer and more functional space for our staff and children. Additionally, following professional advice, we have replaced the old, rotten fence around our outside area with a new, secure boundary, further safeguarding our children during outdoor activities.

We extend our heartfelt thanks to everyone who has supported us through donations, participation, and encouragement during these fundraising events.

## Recent Activities

Our preschool continues to offer a rich and varied programme of activities and community engagement. We have enjoyed further visits to Finborough Court, which have proved mutually beneficial for both our children and the residents. We took part in the Big Bird Watch and celebrated World Book Day, introducing the children to the joys of nature and literature.

Our curriculum has explored topics such as veterinary care, Chinese New Year, and basic scientific principles. The children participated in sink and float experiments and learned about the effects of water and sunlight on plant growth. These activities have greatly contributed to their understanding of the world around them and have made learning both fun and accessible.

## Upcoming Projects and Updates

Looking ahead, our next fundraising goal is to update the preschool toilet area, which has remained unchanged for over 30 years and is now in urgent need of refurbishment. With continued commitment to fundraising and support from our community, we hope to begin this important project within the next couple of years.

## Acknowledgements

We would like to express our sincere gratitude to all parents, committee members, staff, and attendees of our fundraising events. Your dedication and support are vital to the ongoing success and improvement of our preschool. Together, we are creating a safe, stimulating, and nurturing environment for our children to thrive.

Thank you for your continued support.
